11	11	Mental Wellness & Mood Tracker

1. Abstract

Mental wellness plays an important role in a person's overall well-being, but people often lack a simple and organized way to monitor their daily moods and wellness activities. Manual tracking can be difficult and may not help users identify emotional patterns over time. The Mental Wellness and Mood Tracker is an RDBMS-based project that provides a structured platform for users to record their daily moods, mood intensity, personal notes, and wellness activities such as meditation, exercise, sleep, and journaling. The system stores this information in a relational database using separate but connected tables for users, moods, mood records, activities, and wellness records. Primary and foreign keys are used to establish relationships between tables, while SQL queries support data insertion, retrieval, updating, deletion, and analysis. The system can generate useful information such as mood history, average mood levels, frequently recorded moods, and wellness activity records. The project demonstrates practical RDBMS concepts including database design, relationships, normalization, CRUD operations, joins, and aggregate functions, while providing a foundation for future enhancements such as mood-trend visualization and personalized wellness recommendations.

1. Team Details

Roll Number(s)	Name of the Student	Signature
2520089070	Salman Ahmed	
2520089071	P Venkata Harshavardhan	
2520090124	Sai Saketh	

1. Frameworks / Platforms / Software Used

MySQL – Relational database management system

- MySQL Workbench – Database design, SQL queries, and ER diagrams
- HTML5 – Frontend structure
- CSS3 – User interface styling
- JavaScript – Frontend functionality
- Node.js – Backend runtime environment
- **Express.js** – Backend framework and API development
- MySQL2 – Node.js library for MySQL database connectivity
- **VS Code** – Development environment
- Git & GitHub – Version control and project collaboration
- Web Browser (Chrome/Edge) – Testing and running the application

Guide Name and Signature (remarks if any)
